## What Our Clients Say

“ Bernadette helped my wife and I with our Irish wills, and provided excellent and professional advice in relation to succession planning. I highly recommend her for anyone needing assistance with wills and estate planning from a knowledgeable and caring professional.”

- Edward Yusko

## Personal Injury Litigation - Including Medical Negligence

We have many years experience with all types of personal injury litigation, arising from vehicle accidents, slip and fall accidents, medical negligence and workplace accidents. We represent clients bringing a claim to the Injuries Board or to the High Court and Supreme Court.

## Mental Health Law

We can advise on all aspects of the law in relation to mental health, mental capacity and wardship. We represent both clients who are involuntarily detained in psychiatric hospitals at mental health tribunals, and families who need advice and guidance when their loved one's mental health is impaired.

## Conveyancing

We act for clients both buying and selling their homes or investment properties. We give comprehensive advice and assistance from the moment the house has gone on the market to the keys being handed over. Most importantly we ensure that after the sale has closed, our clients' interest, and that of the bank, is registered promptly in the Property Registration Authority.

## Probate

We give practical legal advice on making a will in the most tax efficient way, and when a loved one has died, guide our clients through the administration of the estate as quickly and painlessly as possible.

## Elder Law

As we grow older, our health and wellbeing, and the protection of our assets and autonomy, become increasingly important to us. Elder law is the practice of law dedicated to the needs of older clients.

We give expert legal advice to strengthen the legal rights of our clients in the areas of estate planning, Enduring Powers of Attorney, incapacity, nursing home care and elder abuse.
